Technical Notes

The Arkansas Labor Market is prepared monthly in conjunction with the U.S. Department of Labor, Bureau of Labor Statistics (BLS). The current month's estimates are preliminary, while previous month's data is subject to revision.

Estimates of nonfarm payroll jobs show the number of jobs by industry and reflect employment by place of work. Hours and earnings estimates are based on payroll and worker-hour data collected for production workers in manufacturing industries.

Industries are classified according to the North American Industry Classification System (NAICS). All estimates are based on a first quarter 2020 benchmark.

Explanation of Terms and Concepts

Monthly Business

Survey of Employers

A monthly sample survey designed to pro-vide industry information on nonfarm payroll jobs. Data are compiled each month from mail surveys and telephone interviews conducted by the Bureau of Labor Statistics in cooperation with Department of Workforce Services. The data are based on establishment records and include all workers, fullor part-time, who re-ceived pay during the payroll period which includes the 12th of the month. Approximately

5,000 Arkansas business establishments are surveyed.

<u>Metropolitan</u>

Statistical Areas

A term applied by the U.S. Office of Management and Budget to counties that have one or more central cities and that meet specified criteria of population density, commuting patterns and social and economic integration.

Current Population

Survey (CPS)

A monthly sample survey of the population 16 years of age and over, designed to provide data on the labor force, the employed and the unemployed. The survey is conducted each month by the Bureau of the Census for BLS. The information is collected by trained interviewers from a sample of about 60,000 households. The data collected are based on the activity reported for the calendar week including the 12th of the month. Approximately 1,000 Arkansas households are represented in the sample survey.

Civilian Labor Force

The sum of all employed and unemployed persons 16 years of age or older. Members of the Armed Forces are excluded.

Employment

An estimate of the number of persons who worked any time for pay or profit or worked 15 hours or more as unpaid workers in a family business during the calendar week which includes the 12th of the month. Also included are those who, although not working, had some job attachment and were not looking for work, and persons involved in labor management disputes.

Unemployment

An estimate of the number of persons who did not have a job, but were available for work and actively seeking work during the calendar week which includes the 12th of the month.

<u>Unemployment</u>

Rate

The number of unemployed as a percentage of the civilian labor force. Unemployment rates are calculated from unrounded data.

Seasonal

<u>Adjustment</u>

A statistical technique applied to monthly data to eliminate changes that normally occur during the year due to seasonal events such as weather, major holidays, schedule shifts, harvest times, and the opening/closing of schools.

October Spotlight A Comparative Look at Unemployment Rates

Between September and October, seasonally adjusted unemployment rates increased in 24 states. Jobless rates were stable in 25 states and the District of Columbia. In October, unemployment rates ranged from a low of 2.1 percent in Minnesota and Utah to a high of 4.8 percent in the District of Columbia. Arkansas ranked 28th among states, with a jobless rate of 3.6 percent in October. Thirty states, including Arkansas, posted jobless rates below the national rate of 3.7 percent.

Compared to October 2021, unemployment rates have declined in 39 states and the District of Columbia. The largest rate decrease occurred in California, down two and one-tenth of a percentage point. The largest annual increase was in Oklahoma, up five-tenths of a percentage point. Arkansas' unemployment rate increased two-tenths of a percentage point over-the-year, from 3.4 percent in October 2021 up to 3.6 percent in October 2022.

State of Arkansas Civilian Labor Force Summary

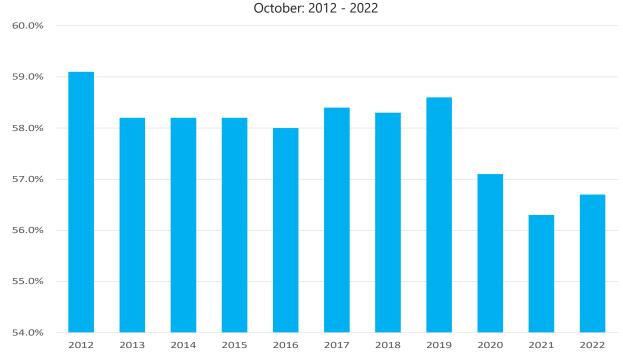

Labor force data, produced by the U.S. Department of Labor, Bureau of Labor Statistics and released by the Arkansas Division of Workforce Services, show Arkansas' seasonally adjusted unemployment rate rose one-tenth of a percentage point, from 3.5 percent in September to 3.6 percent in October. Arkansas' civilian labor force declined by 489, a result of 1,589 fewer employed and 1,100 more unemployed Arkansans. The United States' jobless rate increased two-tenths of a percentage point between September and October, rising from 3.5 percent to 3.7 percent.

BLS Programs Manager Susan Price said, "The number of employed Arkansans declined for the third month in a row, as the unemployment rate grew to 3.6 percent in October. While employment has decreased since July, there are still 17,802 more employed Arkansans compared to October 2021."

State of Arkansas Nonfarm Payroll Job Summary

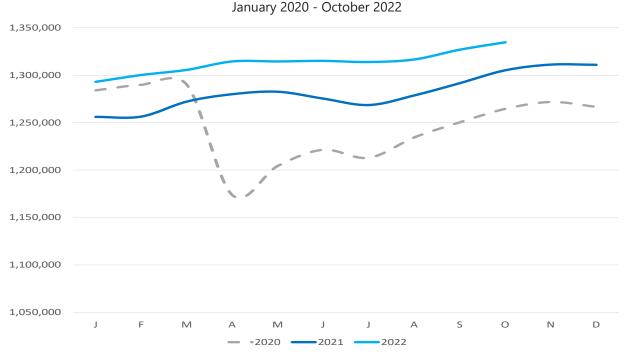

September 2022 - October 2022

OTM verbiage from the PR Nonfarm payroll jobs in Arkansas rose 7,800 in October to total 1,334,700. Six major industry sectors posted gains. **Trade, transportation, and utilities** added 3,900 jobs. Hiring occurred in all subsectors, with jobs in transportation-warehousing-utilities up 1,800. Jobs in **government** increased by 1,600. Most of the gains were in local government-educational services (+1,600), as public schools across the State continue to hire. Jobs in **other services** rose by 1,200. This industry sector includes activities such as automotive repair, drycleaning services, and civic and social organizations.

October 2021 - October 2022

Compared to October 2021, Arkansas' nonfarm payroll jobs are up 29,500. Nine major industry sectors reported growth, with five sectors adding 4,000 or more jobs each. The largest gain was in **manufacturing**, up 6,300 jobs. Most of the hiring was in nondurable goods manufacturing (+4,000). Jobs in **trade**, **transportation**, **and utilities** rose by 6,000. Expansions in wholesale trade (+4,300) and transportation-warehousing-utilities (+2,400) more than offset losses in retail trade (-700). **Educational and health services** added 4,500 jobs. Most of the gains were in health care and social assistance (+3,200). Jobs in **leisure and hospitality** increased by 4,000, with most of the hiring in food services (+3,000). There were also notable expansions in **professional and business services** (+3,400), **information** (+1,200), and **government** (+1,100). Jobs in **construction** are down by 1,200 over the year.

County Labor Force Summary

Between September and October, unemployment rates declined in all 75 Arkansas counties. Jobless rates ranged from a low of 1.9 percent in Washington County to a high of 6.9 percent in Phillips County.

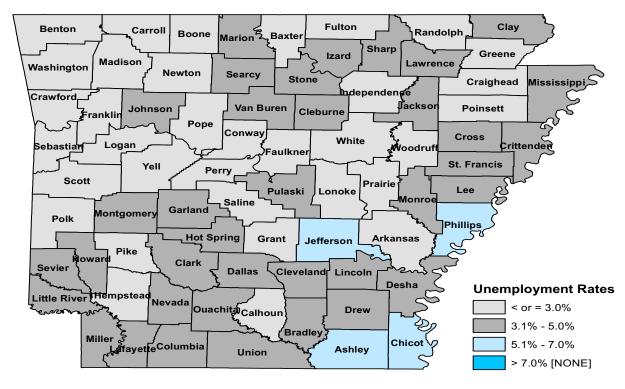

In October, sixty counties posted an unemployment rate at or below four percent. That is up sharply from 43 counties at or below four percent last month. For a third consecutive month, no county had a jobless rate above seven percent.

Compared to October 2021, unemployment rates are up in 64 Arkansas counties. Six counties reported the same unemployment rate compared to last year, while rates in five counties declined. The average annual rate gain was four-tenths of a percentage point. The largest unemployment rate declines were in Pike and Woodruff counties, down five-tenths and four-tenths of a percentage point, respectively.
