EMPLOYMENT AND EARNINGS UNDER THE ARKANSAS EMPLOYMENT SECURITY LAW FIRST QUARTER 2006

DESCRIPTION OF DATA

This publication contains covered employment and payroll data by industry and county for the First Quarter 2006. These data are compiled from quarterly contribution and wage reports submitted by employers subject to the Arkansas Employment Security Law. An employing unit is a single physical location where business is conducted, production takes place, or services are provided. Employment data have been tabulated for each month of the quarter by industry under the **North American Industry Classification**System (NAICS) (see "Industry Classification" below) on a statewide, county and workforce area basis. Payroll data represent the total wages paid during the quarter, and are also shown by

industry for the State and by publishable industry groups for each county and workforce area. The tabulation of this data is a joint effort in conjunction with the U.S. Bureau of Labor Statistics. In addition, there are tables included which set out total covered employment by months, quarterly payrolls, and average weekly earnings for the years 1999 through 2006. Data contained in this publication are subject to revision. These revisions will be reflected in the 2006 Annual Covered Employment and Earnings publication. Because of industry code changes between years, substantial employment and wage shifts among industries are anticipated.

INDUSTRY CLASSIFICATION

Previously published industry data will not be comparable in all instances with currently published data since industry codes have been revised according to the following Manuals: (a) between January 1, 1958 and December 31, 1967, industry codes were assigned under the 1957 Standard Industrial Classification (SIC) Manual; (b) between January 1, 1968 and December 31, 1974, industry codes were assigned under the 1967 Standard Industrial Classification (SIC) Manual; (c) between January 1, 1975 and December 31, 1987, industry codes were assigned under the 1972 Standard Industrial Classification (SIC) Manual; (d) between January 1, 1988 and December 31, 2000, industry codes were assigned under the 1987 Standard Industrial Classification (SIC) Manual; and (e) since January 1, 2001, industry codes have been assigned under the 2002 North American Industry Classification System (NAICS) Manual. The NAICS Manual represents a significant change in coding methodology as compared to the

SIC Manual. One of the most significant changes involves how NAICS treats auxiliary units. Auxiliary units are establishments primarily engaged in performing management or support services for other establishments of the same enterprise. The SIC code for these units was based on the activity of the enterprise served. The NAICS code is based on the actual activities that the establishment performs. Comparisons of many industries should not be made between this publication and previous Covered Employment and Earnings publications that were based on SIC. Even though some titles are the same or similar, in nature, NAICS and SIC could differ in the classification of employers. The implementation of NAICS represents a profound change for statistical programs, and will create significant benefits along with transition obstacles for both data collectors and data users. A summary is available on the NAICS home page at http://www.census.gov/naics.

DEFINITION OF COVERED EMPLOYMENT AND EARNINGS

Covered Employment is the number of workers employed by employers subject to the Arkansas Employment Security Law who worked or received pay for the payroll period including the 12th of the month. An employer is subject to the law when they employ one or more employees in each of ten days during the current or preceding calendar year.

Currently excluded from coverage is employment covered by the Railroad Unemployment Insurance Act, some domestic service workers, employees of small agricultural establishments, selfemployed and unpaid family workers, insurance and real estate agents who are on commission only, and employees of churches and religious organizations except separately incorporated schools. The payroll information in this publication includes all wages and salaries paid to any covered employees by their employers including bonuses, commissions, and cash values of remuneration received in any medium other than cash. These wages include both taxable and nontaxable wages. Only the first \$10,000 paid to each worker by an employer in the calendar year is taxable under the Arkansas Employment Security Law.

FEDERAL GOVERNMENT EMPLOYMENT

Table 7 on page 62 lists the total number of civilians employed by the Federal Government in Arkansas during the First Quarter 2006. Employment and wage data are set out by industry divisions. These data are obtained from required reports submitted by various government agencies having employment in the State. Civilian Federal workers are covered by the Unemployment Compensation for Federal Employees (UCFE) program.

COUNTY CLASSIFICATION

Employment and payroll data by county are classified according to the county where the workers are employed. Employers with operations in more than one county are requested to furnish this agency with a breakdown of employment and wages for at least one quarter of each year by the counties in which they operate. Many such employers submit county data with each regular contribution report. **Note:** This information is invaluable in the preparation of monthly employment and payroll data by county.

Employment and payroll data for multi - area employers, who do not furnish county data each quarter of the year, are prorated by county on the basis of one quarter's information. The "rest-of-state" table that appears on page 61 of this publication includes data on firms that <u>did not</u> provide a county breakdown of employment and payrolls. It also includes sales, and all other type of personnel with no permanent place of work, as well as employment of employers with no established place of business in Arkansas.

SIGNIFICANT DEVELOPMENTS DURING FIRST QUARTER 2006

AVERAGE EMPLOYMENT CHANGES

Covered employment averaged 1,140,049 during the First Quarter 2006 (see table 1), a decrease of 5,254 (-0.5%) from the previous quarter and 26,251 (2.4%) above the average recorded one-year ago. This *over-the-year* increase is more significant when used as an economic indicator. This *over-the-year* comparison allows for the disregarding of many seasonal factors that are evident when making an *over-the-quarter* comparison.

EMPLOYMENT CHANGES FROM FOURTH QUARTER 2005

Over the quarter losses were recorded in six of the eleven industry groups (see table 1). Trade, Transportation and Utilities experienced the biggest drop of 4,323 employees. The focus of the decrease was in the trade industries with 79% of the decline. This is mainly due to the end of the holiday season as retailers release temporary workers. The Natural Resources and Mining (-1,655) sector had a seasonal contraction with the beginning of winter. Construction continued its downward path with a loss of 923 jobs. Other sectors

with a decline included Professional & Business Services (-264), Information (-249), and Education & Health Services (-196).

Gains were recorded in five industries. State and Local Government recorded the largest increase of 1,260 employees. This increase was mainly attributed to the return of educational facilities as employment returned to normal levels after the holiday break.

EMPLOYMENT CHANGES FROM FIRST QUARTER 2005

Over-the-year gains were recorded in nine industry groups while two recorded losses (see table 1). Significant gains were posted in State & Local Government (+5,214), Professional & Business Services (+4,646), and Educational & Health Services (+4,489). The only losses occurred in Information (-558) and Manufacturing (-99).

COVERED WAGES

Wages paid to covered workers totaled \$9,086,373,822 for the First Quarter 2006 (see table 1), for an average weekly wage of \$613.09 (see table 5). Employees in Little River County recorded the highest average weekly wage (\$813.60), and workers in Newton County the lowest (\$343.14) (see table 6).

The Information sector recorded the highest average weekly wage for the State of Arkansas at \$872.87, while the Leisure & Hospitality sector recorded the lowest at \$217.71 for the State of Arkansas (see table 5).

Note: Because of industry code changes between years, substantial employment and wage shifts among industries are anticipated.
