EMPLOYMENT AND EARNINGS UNDER THE ARKANSAS EMPLOYMENT SECURITY LAW FOURTH QUARTER 2006

DESCRIPTION OF DATA

This publication contains covered employment and payroll data by industry and county for the Fourth Quarter 2006. These data are compiled from quarterly contribution and wage reports submitted by employers subject to the Arkansas Employment Security Law. An employing unit is a single physical location where business is conducted, production takes place, or services are provided. Employment data have been tabulated for each month of the quarter by industry under the **North American Industry Classification**System (NAICS) (see "Industry Classification" below) on a statewide, county and workforce area basis. Payroll data represent the total wages paid during the quarter, and are also shown by

industry for the State and by publishable industry groups for each county and workforce area. The tabulation of this data is a joint effort in conjunction with the U.S. Bureau of Labor Statistics. In addition, there are tables included which set out total covered employment by months, quarterly payrolls, and average weekly earnings for the years 1999 through 2006. Data contained in this publication are subject to revision. These revisions will be reflected in the 2006 Annual Covered Employment and Earnings publication. Because of industry code changes between years, substantial employment and wage shifts among industries are anticipated.

INDUSTRY CLASSIFICATION

Previously published industry data will not be comparable in all instances with currently published data since industry codes have been revised according to the following Manuals: (a) between January 1, 1958 and December 31, 1967, industry codes were assigned under the 1957 Standard Industrial Classification (SIC) Manual; (b) between January 1, 1968 and December 31, 1974, industry codes were assigned under the 1967 Standard Industrial Classification (SIC) Manual; (c) between January 1, 1975 and December 31, 1987, industry codes were assigned under the 1972 Standard Industrial Classification (SIC) Manual; (d) between January 1, 1988 and December 31, 2000, industry codes were assigned under the 1987 Standard Industrial Classification (SIC) Manual; and (e) since January 1, 2001, industry codes have been assigned under the 2002 North American Industry Classification System (NAICS) Manual. The NAICS Manual represents a significant change in coding methodology as compared to the SIC Manual. One of the most significant changes involves how NAICS treats auxiliary units. Auxiliary units are establishments primarily engaged in performing management or support services for other establishments of the same enterprise. The SIC code for these units was based on the activity of the enterprise served. The NAICS code is based on the actual activities that the establishment performs. Comparisons of many industries should not be made between this publication and previous Covered Employment and Earnings publications that were based on SIC. Even though some titles are the same or similar, in nature, NAICS and SIC could differ in the classification of employers. The implementation of NAICS represents a profound change for statistical programs, and will create significant benefits along with transition obstacles for both data collectors and data users. A summary is available on the NAICS home page at http://www.census.gov/naics.

DEFINITION OF COVERED EMPLOYMENT AND EARNINGS

Covered Employment is the number of workers employed by employers subject to the Arkansas Employment Security Law who worked or received pay for the payroll period including the 12th of the month. An employer is subject to the law when they employ one or more employees in each of ten days during the current or preceding calendar year.

Currently excluded from coverage is employment covered by the Railroad Unemployment Insurance Act, some domestic service workers, employees of small agricultural establishments, selfemployed and unpaid family workers, insurance and real estate agents who are on commission only, and employees of churches and religious organizations except separately incorporated schools. The payroll information in this publication includes all wages and salaries paid to any covered employees by their employers including bonuses, commissions, and cash values of remuneration received in any medium other than cash. These wages include both taxable and nontaxable wages. Only the first \$10,000 paid to each worker by an employer in the calendar year is taxable under the Arkansas Employment Security Law.

FEDERAL GOVERNMENT EMPLOYMENT

Table 7 on page 62 lists the total number of civilians employed by the Federal Government in Arkansas during the Fourth Quarter 2006. Employment and wage data are set out by industry divisions. These data are obtained from required reports submitted by various government agencies having employment in the State. Civilian Federal workers are covered by the Unemployment Compensation for Federal Employees (UCFE) program.

COUNTY CLASSIFICATION

Employment and payroll data by county are classified according to the county where the workers are employed. Employers with operations in more than one county are requested to furnish this agency with a breakdown of employment and wages for at least one quarter of each year by the counties in which they operate. Many such employers submit county data with each regular contribution report. Note: This information is invaluable in the preparation of monthly employment and payroll data by county.

Employment and payroll data for multi - area employers, who do not furnish county data each quarter of the year, are prorated by county on the basis of one quarter of information. The "rest-of-state" table that appears on page 61 of this publication includes data on firms that <u>did not</u> provide a county breakdown of employment and payrolls. It also includes sales, and all other type of personnel with no permanent place of work, as well as employment of employers with no established place of business in Arkansas.

SIGNIFICANT DEVELOPMENTS DURING FOURTH QUARTER 2006

AVERAGE EMPLOYMENT CHANGES

Covered employment averaged 1,157,046 during the Fourth Quarter 2006 (see table 1), an increase of 21,794 (1.9%) from the previous quarter and 11,743 (1.0%) above the average recorded one-year ago. This *over-the-year* increase is more significant when used as an economic indicator. This *over-the-year* comparison allows for the disregarding of many seasonal factors that are evident when making an *over-the-quarter* comparison.

Average Covered Employment by NAICS Group

EMPLOYMENT CHANGES FROM THIRD QUARTER 2006

Over the quarter gains were recorded in six industry groups while five suffered losses (see Table 1). Employment in State and Local Government rose 27,213 or 17.6% from the previous quarter due to the start of school in local school districts. Trade, Transportation and Utilities gained 3,731 jobs. This boost in employment is primarily found in Retail Trade (3,626 jobs) because of the increase in seasonal workers for the holiday season. Education and Health Services saw a gain of 0.8%. The continuing natural gas boom in Arkansas led to an increase of 347 jobs in Natural Resources and

Mining. Financial Activities (+32) and Information (+12) also reported minimal gains.

Layoffs have led to a decrease of 4,335 jobs in Manufacturing. Leisure & Hospitality lost 3,223 jobs because of the end of the summer travel season. Construction (-1,783), Other Services (-637) and Professional and Business Services (-694) also reported losses.

EMPLOYMENT CHANGES FROM FOURTH QUARTER 2005

Over-the-year gains were recorded in ten industry groups while one recorded a loss (see table 1). Significant gains were posted in Educational & Health Services (+4,068), Leisure & Hospitality (+3,556), and State & Local Government (+3,436). The only loss occurred in Manufacturing (-6,332).

COVERED WAGES

Wages paid to covered workers totaled \$9,685,672,308 for the Fourth Quarter 2006 (see table 1), for an average weekly wage of \$643.93 (see table 5). Employees in Little River County recorded the highest average weekly wage (\$780.69), and workers in Newton County the lowest (\$373.53) (see table 6).

The Information sector recorded the highest average weekly wage for the State of Arkansas at \$833.80, while the Leisure & Hospitality sector recorded the lowest at \$235.09 for the State of Arkansas (see table 5).

Average Weekly Wages by Industry Group

Note: Because of industry code changes between years, substantial employment and wage shifts among industries are anticipated.
