EMPLOYMENT AND EARNINGS UNDER THE ARKANSAS EMPLOYMENT SECURITY LAW ANNUAL 2009

DESCRIPTION OF DATA

This publication contains covered employment and payroll data by industry and county for the Calendar Year 2009. These data are compiled from quarterly contributions and wage reports submitted by employers subject to the Arkansas Employment Security Law. An employing unit is a single physical location where business is conducted, production takes place, or services are provided. Employment and wage data have been tabulated annually for the calendar year by industry under the **North American Industry Classification System** (NAICS) (see "Industry Classification" below) on a statewide, county and workforce area basis. Payroll data represent the total wages paid during the calendar year, and are also shown by

industry for the State and by publishable industry groups for each county and workforce area. The tabulation of this data is a joint effort in conjunction with the U.S. Bureau of Labor Statistics. In addition, there are tables included which set out total covered employment by months, quarterly payrolls, and average weekly earnings for the years 2002 through 2009. Data contained in this publication are subject to revision. Because of industry code changes between years, substantial employment and wage shifts among industries are anticipated.

INDUSTRY CLASSIFICATION

Previously published industry data will not be comparable in all instances with currently published data since industry codes have been revised. The last two revisions were based on the North American Industry Classification System (NAICS) a six digit industry code instead of the Standard Industrial Classification (SIC) system, a four digit industry code, which had been used previously. The following are the NAICS Manuals used to revise the data: (a) between January 1, 2001 and December 31, 2006 industry codes were assigned under the 2002 North American Industry Classification System (NAICS) Manual; (b) since January 1, 2007 industry codes have been assigned under the 2007 North American Industry Classification System Manual. The NAICS Manual represents a significant change in coding methodology as compared to the SIC Manual. One of the most significant changes involves how NAICS treats auxiliary units.

Auxiliary units are establishments primarily engaged in performing management of support services for other establishments of the same enterprise. The SIC code for these units was based on the activity of the enterprise served. The NAICS code is based on the actual activities that the establishment performs. Comparisons of many industries should not be made between this publication and previous Covered Employment and Earnings publications that were based on SIC. Even though some titles are the same or similar in nature, NAICS and SIC could differ in classification of employers. The implementation of NAICS represents a profound change for statistical programs and will create significant benefits along with transition obstacles for both data collectors and data users. A summary is available on the NAICS home page at http://www.census.gov/naics.

DEFINITION OF COVERED EMPLOYMENT AND EARNINGS

Covered Employment is the number of workers employed by businesses subject to the Arkansas Employment Security Law who worked or received pay for the payroll period including the 12th of the month. An employer is subject to the law when they employ one or more employees in each of ten days during the current or preceding calendar year.

Currently excluded from coverage is employment covered by the Railroad Unemployment Insurance Act, some domestic service workers, employees of small agricultural establishments, selfemployed and unpaid family workers, insurance and real estate agents who are on commission only, and employees of churches and religious organizations except separately incorporated schools. The payroll information in this publication includes all wages and salaries paid to any covered employees by their employers including bonuses, commissions, and cash values of remuneration received in any medium other than cash. These wages include both taxable and nontaxable wages. Only the first \$10,000 paid to each worker by an employer in the calendar year is taxable under the Arkansas Employment Security Law.

FEDERAL GOVERNMENT EMPLOYMENT

Table 7 on page 60 lists the average number of civilians employed by the Federal Government in Arkansas during the Calendar Year 2009. Employment and wage data are set out by industry divisions. These data are obtained from required reports submitted by various government agencies having employment in the State. Civilian Federal workers are covered by the Unemployment Compensation for Federal Employees (UCFE) program.

COUNTY CLASSIFICATION

Employment and payroll data by county are classified according to the county where the workers are employed. Employers with operations in more than one county are requested to furnish this agency with a breakdown of employment and wages for at least one quarter of each year by the counties in which they operate. Many such employers submit county data with each regular contribution report. Note: This information is invaluable in the preparation of monthly employment and payroll data by county.

Employment and payroll data for multi-area employers, who do not furnish county data each quarter of the year, are prorated by county on the basis of one quarter's information. The "Statewide County" table that appears on page 59 of this publication includes data on firms that did not provide a county breakdown of employment and payrolls. It also includes sales, and all other types of personnel with no permanent place of work, as well as employment of employers with no established place of business in Arkansas.

SIGNIFICANT DEVELOPMENTS DURING CALENDAR YEAR 2009

AVERAGE EMPLOYMENT CHANGES

Covered employment averaged 1,112,601 during the Calendar Year 2009 (see Table 1, page 5), a decrease of 38,077 from the previous year. The largest employment gains occurred in Education & Health Services (4,544) and State & Local Government (2,150).

EMPLOYMENT CHANGES FOR CALENDAR YEAR 2009

Nine of the eleven major industry sectors recorded job losses over-the-year. The largest declines occurred in Manufacturing (-18,298), Trade, Transportation, & Utilities (-11,535), Construction (-4,523), and Professional & Business Services (-4,369). The recession is mostly responsible for the declines in these sectors. Other industries reporting losses include Information (-2,385), Financial Activities (-1,518), Leisure & Hospitality (-1,083), Natural Resources & Mining (-566), and Other Services (-496). The two industries that experienced the most growth were Education & Health Services (4,544) and State & Local Government (2,150). In Education & Health Services, Health Care & Social Assistance increased by 3,974, only a slight decrease in the trend from 2008. State & Local Government expanded with 2,330 new positions in 2009. Local Government lost 180 positions within that sector.

EMPLOYMENT CHANGES FOR CALENDAR YEAR 2009

Pulaski County posted the highest average covered employment in 2009 at 234,545. Benton County came in second with 90,560 in covered employment, slightly higher than Washington County with 86,606. Sebastian County had the fourth highest number of covered employment with 66,947, followed by Craighead County with 41,191. All five leading counties experienced declines compared to 2008 due to the effects of the recession.

COVERED WAGES

Wages paid to covered workers totaled \$39,149,476,305 for the Calendar Year 2009 (see Table 1), for an average weekly wage of \$676.68 (see Table 5). Employees in Little River County recorded the highest average weekly wage (\$875.35), and workers in Newton County the lowest (\$409.77) (see Table 6).

The Information sector recorded the highest average weekly wage for the State of Arkansas at \$1,286.94. The Leisure and Hospitality sector recorded the lowest average weekly wage at \$250.39 for the State of Arkansas (see Table 5).

Average Weekly Wage by Industry
