EMPLOYMENT AND EARNINGS UNDER THE ARKANSAS EMPLOYMENT SECURITY LAW SECOND QUARTER 2011

DESCRIPTION OF DATA

This publication contains covered employment and payroll data by industry and county for the Second Quarter 2011. These data are compiled from quarterly contributions and wage reports submitted by employers subject to the Arkansas Employment Security Law. An employing unit is a single physical location where business is conducted, production takes place, or services are provided. Employment data have been tabulated for each month of the quarter by industry under the **North American Industry Classification System** (NAICS) (see "Industry Classification" below) on a statewide, county and workforce area basis. Payroll data represent the total wages paid during the quarter, and are also shown by industry for the State and

by publishable industry groups for each county and workforce area. The tabulation of this data is a joint effort in conjunction with the U.S. Bureau of Labor Statistics. In addition, there are tables included which set out total covered employment by months, quarterly payrolls, and average weekly earnings for the years 2004 through 2011. Data contained in this publication are subject to revisions. Revisions for a quarter are typically reflected in the specified year's Annual Covered Employment and Earnings publication. Industry codes changes between years could cause significant employment and wages shifts among industries.

INDUSTRY CLASSIFICATION

Previously published industry data will not be comparable in all instances with currently published data since industry codes have been revised. The last two revisions have occurred using the North American Industry Classification System (NAICS) which is a six digit industry code. Since 2001, NAICS codes are revised every five years. The most recent revision is NAICS 2012. These revisions are being incorporated in 2011 publications.

Auxiliary units are establishments primarily engaged in performing management of support services for other establishments of the same enterprise. The NAICS code is based on the actual activities that the establishment performs. Comparisons of many industries should not be made between this publication and previous Covered Employment and Earnings publications that were based on previous coding revisions. A summary is available on the NAICS home page at http://www.census.gov/naics.

DEFINITION OF COVERED EMPLOYMENT AND EARNINGS

Covered Employment is the number of workers employed by employers subject to the Arkansas Employment Security Law who worked or received pay for the payroll period including the 12th of the month. An employer is subject to the law when they employ one or more employees in each of ten days during the current or preceding calendar year.

Currently excluded from coverage is employment covered by the Railroad Unemployment Insurance Act, some domestic service workers, employees of small agricultural establishments, selfemployed and unpaid family workers, insurance and real estate agents who are on commission only, and employees of churches and religious organizations except separately incorporated schools. The payroll information in this publication includes all wages and salaries paid to any covered employees by their employers including bonuses, commissions, and cash values of remuneration received in any medium other than cash. These wages include both taxable and nontaxable wages. Only the first \$12,000 paid to each worker by an employer in the calendar year is taxable under the Arkansas Employment Security Law.

FEDERAL GOVERNMENT EMPLOYMENT

Table 7 on page 63 lists the total number of civilians employed by the Federal Government in Arkansas during the Second Quarter 2011. Employment and wage data are set out by industry divisions.

These data are obtained from required reports submitted by various government agencies having employment in the State. Civilian Federal workers are covered by the Unemployment Compensation for Federal Employees (UCFE) program.

COUNTY CLASSIFICATION

Employment and payroll data by county are classified according to the county where the workers are employed. Employers with operations in more than one county are requested to furnish this agency with a breakdown of employment and wages for at least one quarter of each year by the counties in which they operate. Many such employers submit county data with each regular contribution report. Note: This information is invaluable in the preparation of monthly employment and payroll data by county.

Employment and payroll data for multi-area employers, who do not furnish county data each quarter of the year, are prorated by county on the basis of one quarter's information. The "rest-of-state" table that appears on page 62 of this publication includes data on firms that did not provide a county breakdown of employment and payrolls. It also includes sales, and all other type of personnel with no permanent place of work, as well as employment of employers with no established place of business in Arkansas.

SIGNIFICANT DEVELOPMENTS DURING SECOND QUARTER 2011

AVERAGE EMPLOYMENT CHANGES

Covered employment averaged 1,126,473 during the Second Quarter 2011 (see table 1), an increase of 23,188 (2.1%) from the previous quarter and an increase of 30,682 (2.8%) from the average recorded one-year ago. This over-the year increase is more significant when used as an economic indicator. This over-the-year comparison allows for the disregarding of many seasonal factors that are evident when making an over-the-quarter comparison.

Compared to First Quarter 2011, covered employment increased in six major industry sectors, more than offsetting the decline in one sector. Leisure and Hospitality posted the greatest gain (+7,189). Trade, Transportation, and Utilities added 4,669, mostly in Retail Trade. The Construction industry increased by 3,281 jobs. Professional and Business Services added 2,893, with the largest gains seen in Administration and Waste Services. State and Local Government increased by 1,487, with the largest gain in Local government. Natural Resources and Mining increased by 1,343, with the largest gain in Agriculture, Forestry, Fishing and Hunting. The Information sector posted a decline of -124.

EMPLOYMENT CHANGES FROM SECOND QUARTER 2010 (QUARTER YEAR AGO COMPARISON)

Over the year gains were recorded in four industry groups while seven recorded losses (see Table 1). The largest gains were posted in Trade, Transportation & Utilities (3,773), Professional & Business Services (2,272), and Education & Health Services (1,936). Significant losses occurred in Construction (-2,375), Information (-705) and Natural Resources and Mining (-477).

COVERED WAGES

Wages paid to covered workers totaled \$10,128,274,611 for the Second Quarter 2010 (see Table 1), for an average weekly wage of \$691.63 (see Table 5). Employees in Little River County recorded the highest average weekly wage (\$870.91), and workers in Newton County the lowest (\$440.61) (see Table 6).

The Information sector recorded the highest average weekly wage for the State of Arkansas at \$908.92; while the Leisure and Hospitality sector recorded the lowest at \$260.68 for the State of Arkansas (see Table 5).
