ARKANSAS AVERAGE COVERED EMPLOYMENT AND EARNINGS BY COUNTY AND INDUSTRY, 2000

DESCRIPTION OF DATA

Tables contained in this report represent average monthly employment, total payroll data, and average weekly earnings by industry and county for the calendar year 2000. These data were compiled from quarterly contribution and wage reports submitted by employers subject to the Arkansas Employment Security Law. An employing unit is a single physical location where business is conducted, production takes place, or services are provided. Employment data represents a monthly average for the year by industry on a statewide and county basis. Payroll data represents the total earnings paid during the year and are also shown by industry for the state and in publishable groups in each county. The tabulation of this data is a joint effort in conjunction with the Bureau of Labor Statistics. Average weekly earnings data are computed from total earnings reported by all establishments subject to the Arkansas

Employment Security Law and are not to be confused with wage rates prevailing in various industries. Neither are these earnings to be confused with the monthly series of average weekly earnings of production workers that appear in the Arkansas Labor Market Trends and in other labor area releases. In addition, there are tables included which give total covered employment and manufacturing employment by months, quarterly payrolls, and average weekly earnings for the years 1994 through 2000. Data contained in this publication are subject to revision. Annual average data may not equal the sum of previously published quarterly data due to revisions that occur throughout the year. Because of industry code changes between years, there may be substantial employment and wage shifts among industries.

INDUSTRY CLASSIFICATION

Previously published industry data will not be comparable in all instances with currently published data since industry codes have been revised according to the following Manuals: (a) manufacturing industries were coded according to the 1945 Standard Industrial Manual until December 31, 1957, while nonmanufacturing industries were coded under the Social Security Board Industrial Classification Manual (1942); (b) between January 1, 1958 and December 31, 1967, industry codes were assigned under the 1957 Standard

Industrial Classification (SIC) Manual; (c) between January 1, 1968 and December 31, 1974, industry codes were assigned under the 1967 Standard Industrial Classification (SIC) Manual; (d) between January 1, 1975 and December 31, 1987, industry codes were assigned under the 1972 Standard Industrial Classification (SIC) Manual; and (e) since January 1, 1988, industry codes have been assigned under the 1987 Standard Industrial Classification (SIC) Manual.

DEFINITION OF COVERED EMPLOYMENT, EARNINGS, AND AVERAGE WEEKLY EARNINGS

Covered employment is the number of workers employed by employers subject to the Arkansas Employment Security Law who worked or received pay for the payroll period which includes the 12th of the month. An employer is subject to the law when he has employed one or more employees in each of ten days during the current or preceding calendar year.

Currently excluded from coverage is employment covered by the Railroad Unemployment Insurance Act; some domestic service workers; employees of small agricultural establishments; self-employed and unpaid family workers; insurance and real estate agents who are on commission only; and employees of churches and religious organizations, except separately incorporated schools. The payroll information in this publication includes all wages and salaries paid to covered employees by their employers including bonuses,

commissions, and cash values of remuneration received in any medium other than cash. These wages include both taxable and nontaxable wages. Only the first \$9,000 paid to each worker by an employer in the calendar year is taxable under the Arkansas Employment Security Law.

The average covered employment and average weekly earnings data, included in tables in this publication, were computed in the following manner: Employment data for the twelve months were totaled and divided by 12 to secure the average employment for the year. Total earnings for the year were divided by the average employment to secure the average annual earnings per employee. The average annual earnings per employee were then divided by 52 (number of weeks in a year) to secure the average weekly earnings per employee for the year.

FEDERAL GOVERNMENT EMPLOYMENT

The table on page 53 lists the average number of civilians employed by the Federal Government in Arkansas during 2000. Employment and wage data are set out by industry divisions. These data are obtained from required reports submitted by various government

agencies having employment in the State. Civilian Federal workers are covered by the Unemployment Compensation for Federal Employees (UCFE) program.

COUNTY CLASSIFICATION

Employment and payroll data by county are classified according to the county where the workers are employed. Employers with operations in more than one county are requested to furnish this agency with a breakdown of employment and wages for at least one quarter of each year by the counties in which they operate. This information is invaluable in the preparation of monthly employment, payroll, and average weekly earnings figures by county. Employment, payroll, and average weekly earnings data for multi-area employers

who do not furnish county data each quarter of the year are pro-rated by county on the basis of one quarter's information.

The "rest-of-state" data includes firms which did not provide a county breakdown of employment and payrolls. It also includes sales and other type personnel with no permanent place of work, as well as employment of employers with no established place of business in Arkansas.

SIGNIFICANT DEVELOPMENTS DURING CALENDAR YEAR 2000

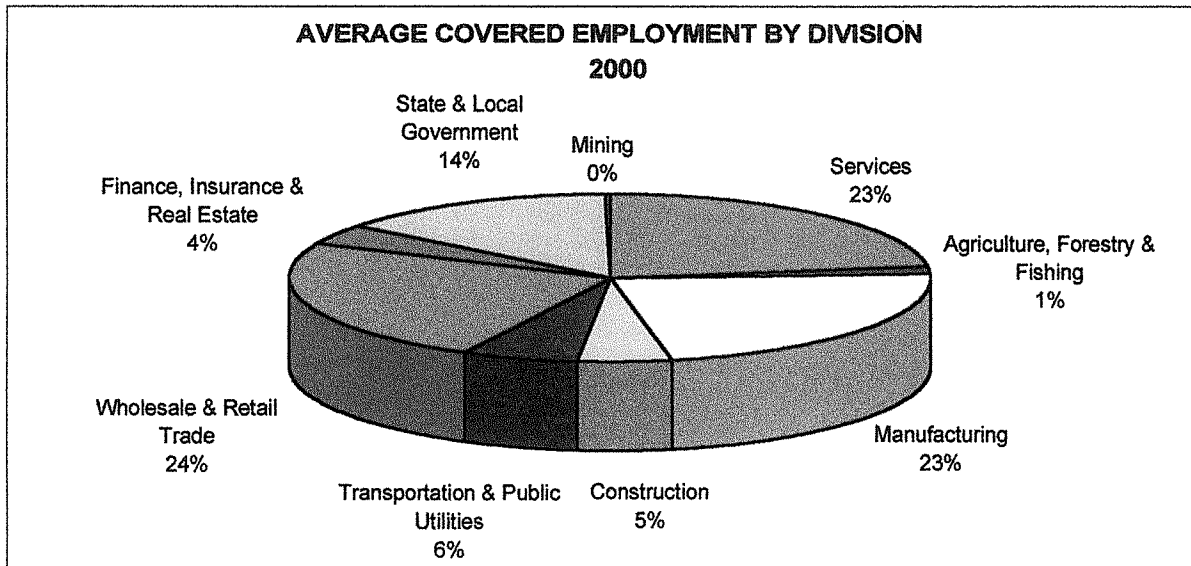

AVERAGE COVERED EMPLOYMENT

Covered employment in Arkansas averaged 1,108,415 in 2000. This represented an increase of 16,064, or 1.4 percent, from the level of 1,092,351 recorded in 1999. Manufacturing industries experienced an over-the-year decrease while nonmanufacturing industries recorded an increase. The manufacturing sector decreased by 879 to an average of 250,956, while nonmanufacturing industries rose 16,943 to average 857,459.

Wholesale and retail trade posted a gain of 4,721 and led all nonmanufacturing industries with an average of 266,504. Services ranked second with an average of 251,459 and experienced a gain of 5,766. State and local government increased 2,488 to rank third with an average of 156,149.

Food and kindred products posted the largest loss (-1,473) among the manufacturing industry groups to average 56,062. Other manufacturing industries with significant decreases were apparel & other textile products (-618) and lumber and wood products (-476). The most significant gain occurred in transportation equipment (+892).

Pulaski ranked first among the counties in covered employment, averaging 233,846 during 2000. Second ranked Washington County averaged 78,727, followed by Sebastian County with 74,039. Benton and Craighead Counties averaged 69,608 and 38,893, respectively, to make the top five among the counties.

AVERAGE WEEKLY EARNINGS

Average weekly earnings paid to covered workers amounted to \$500.38 during 2000. This represented an increase of \$17.88, or 3.7 percent, from the level of \$482.51 recorded in 1999. Workers in the manufacturing industries earned an average weekly wage of \$562.43. Employees in the paper and allied products industry led all published industry groups with average weekly earnings of \$836.48. Workers in chemicals and allied products ranked second averaging \$815.42, followed by petroleum and coal products employees (\$790.88) and primary metal industries workers (\$752.06). Apparel and other textile products employees (\$313.90) and leather and leather products workers (\$361.26) posted the lowest averages.

Workers in nonmanufacturing industries earned an average weekly wage of \$482.21.

Little River County employees ranked first averaging \$673.22. Benton County employees (\$612.17) ranked second followed by Pulaski County (\$582.17), Ashley County (\$578.44), and Calhoun County (573.36). Employees in Searcy County ranked last among the counties with an average of \$306.77.

TABLE 1. AVERAGE COVERED EMPLOYMENT AND AVERAGE WEEKLY EARNINGS, BY INDUSTRY, 2000

Industry Group	Average Covered Employment	% of Total	Net Change From 1999 to 2000	Average Weekly Earnings
Total	1,108,415	100.0	16,064	\$500.38
